

Caring for Individuals With Substance Use and Co-Occurring Disorders

PHMC provides high-quality, evidence-based programs and services to **improve the social determinants of health** that impact the well-being of our communities. Our approach to treatment for individuals with **substance use disorder, including opioid use disorder**, is grounded in science and the understanding that the disorder is a chronic, medical condition from which **recovery and wellness are possible**.

PHMC Center of Excellence for Opioid Use Disorder Treatment

The Center of Excellence is a model of coordinated care offered through a patient centered medical home to help individuals access a variety of services to support recovery. Patients are also referred to other levels of care within PHMC's network of programs and to external resources. The Center of Excellence operates in three of PHMC's health centers in Philadelphia.

Service Highlights:

- Assessments and psychiatric evaluations
- Medication Assisted Treatment (same-day inductions available)
- On-site pharmacy
- Integrated behavioral health
- Access to primary care, prevention services, care management, behavioral health services
- Medication management and peer specialist support

Medication Options: Buprenorphine, Vivitrol, methadone referrals, nicotine replacement medications

Eligibility: Adults 18 years or older with an opioid use disorder in need of support and/or treatment referral.

Hours of Operation: Services available Monday through Friday. Please call for specific hours. Appointments or walk-ins welcome.

On-site pharmacy available at PHMC Care Clinic.
