

How are we going to pay for college?

Student debt is a growing problem and many families are concerned about having a solid plan to cover college costs. That's where we come in.

Clarifi College works one-on-one with your family to put together a personalized, comprehensive plan showing you how to pay for college.

Meet with one of our College Financial Advisors and receive:

- ✓ A review of your financial situation and projected financial aid for your selected schools
- ✓ A 4-6 year funding plan to project how your family will pay for college and what options are most realistic and affordable
- ✓ A compilation of financial/school scenarios, and an assessment of how much debt you can realistically take on and repay later

The total cost of this service is only \$195.

Why Clarifi College?

Clarifi is a Philadelphia-based nonprofit that's been helping people make sound financial decisions for nearly 50 years. The goal of Clarifi College is to encourage families to be proactive and make strategic financial decisions to save money and avoid unnecessary debt.
